**WATER RIGHT APPLICATION REVIEW**

**Application Number:** G230011

**Applicant:** Shady Firs RV & Mobil Home  
Park  
107 Young Road  
Randle, WA 98377

**WRIA:** 26

**Water:** Well near the Cowlitz River tributary  
to the Columbia River.

**This water and/or affected reaches downstream are inhabited by:**

**Based on:** ☐ Site-specific observations ☐ WDFW database or GIS  
☐ Literature ☐ Knowledge of this type of stream

**Amount:** cfs 44.00 gpm 21.00 acre-ft

**Point of diversion:** NE 1/4 of S15 T12N R7E.

**Point of use:**

**WDFW recommended conditions:**

☐ Instream flows in WAC 173-5

☐ This water right should be subject to any established lake levels, if any.

**Instream flows based on:** ☐ IFIM study ☐ USGS toe-width ☐ Tennant  
☐ Other:

**WDFW requests that water right be subject to the following instream flows or natural flow,  
whichever is less:**

Jan  
Feb  
Mar  
Apr  
May  
Jun

S

Jul  
Aug  
Sep  
Oct  
Nov  
Dec

**Instream flows to be measured at:**

**Other conditions requested by WDFW indicated by ☒:**

☐ HPA

☐ Screen intake if accessible to fish (to be determined during application for HPA) according to WDFW standards.

☐ Based upon review of fish resources present, type and amount of water use, condition of habitat, and amount of water available, WDFW REQUESTS DENIAL of this application, in accordance with RCW 75.20.050, IF THIS SPACE IS CHECKED.

☐ WDFW recommends modification of this proposal to minimize impacts to fish.

☐ WDFW is a landowner and water user that will be affected by this proposed use.

☐ Please HOLD this application pending field review. WDFW staff will provide detailed response by

☐ Granting this water right application would adversely affect WDFW's existing water rights for a facility. We request the following conditions for this water right if it is granted.

**Rationale for WDFW recommendations if not based on existing rules or statutes:** WDFW has no objections to this application.

Re: Water Right Application No. G2-30011 for Shady Firs RV & Mobile Home Park

This letter is to acknowledge that the Washington State Department of Ecology received your water right application. We have assigned your application the number indicated above. Please include this number in future correspondence regarding your application with the Department of Ecology.

When we begin actively evaluating applications in your area, we will prepare a public notice and send it to you with publication instructions. It will be sometime before we are able to begin working in your area. In the meantime, please notify Ecology of changes such as address, property ownership, or variations in your proposed water use plans.

The availability of water in Washington state is a serious problem. Much of the water in our state has already been appropriated. The competition for water has escalated with our state's increasing population, conflicting water policy issues, and grave declines in salmon and other fish populations. A new watershed management law brings us a step closer to addressing some of these issues. It sets into motion a locally based process to address water quantity, quality, and habitat issues. Watershed management will help meet challenges for getting water to people, industries, farms, and fish.

In some areas of the state, we are continuing to evaluate applications within watersheds where we have previously gathered information and completed watershed assessments. We are also continuing to process water right permit or change applications that are intended to address public health and safety emergencies, the natural environment, or are for nonconsumptive withdrawals. All other applications are grouped by watershed and processed according to the date of submittal, and when we have enough information and staff resources to make decisions.

If you would like further information on your application, please contact the Southwest Regional Office at (360) 407-0240.

Sincerely,

*J. Mike Harris*
